UNIQUE IN FORMULA. UNIQUE IN APPEARANCE.

The robust UNIQ Foam Dispenser Pro is made of stainless steel and perfect for intensive use. It is mechanically operated by means of a treadle and it ensures for 5,000 disinfection doses per bottle without creating any mess. Whether it's for indoor or outdoor usage, it's applicable in all weather conditions without any power requirements and customizable to your own brand.

Derived from natural and 100% organic ingredients, the UNIQ Oxy Foam has the same disinfectant effects as 80% alcohol, without drying out the skin. By adding Jojoba oil with a wonderful mixture of natural ingredients hand moisture balance is regulated leaving the skin feeling hydrated. The Oxy Foam, supplied in small bottles containing powder, becomes activated when mixed with the right amount of water. No towels or water required!
