# Your audio solution, our passion

AUDAC

AUDAC Set Solutions

AUDAC is the Belgian brand that specializes in professional quality audio solutions.

The brand is well-known for designing inspiring and innovative products for the audio market for over 25 years.

Inside this catalog, AUDAC's audio engineers help you choose between AUDAC's most innovating acoustic solutions.

In addition to the handy 'speech' and 'music' indication logos, you will also find an indication of the area that the audio solution will cover. Together with the application examples, these elements will provide you with an accurate idea of which solution will work best.

Are you still struggling to find a solution or are you perhaps looking for a more extensive or elaborate audio system? Do not hesitate to contact us at info@audac.eu.

Visit audac.eu/setsolutions for a complete overview of all set solutions.

Legend

Speech level (1-4)	Max power (10W)
Music level (1-4)	High impedance (100V)
Recommended area coverage (± 60 m²)	Low impedance (8 Ohm)
Humidity resistant	

Content

In-ceiling speakers

The CS series are elegant in-ceiling loudspeakers made of high-quality components ensuring a detailed and warm sound reproduction of music as well as speech.

Showing only a few models inside this catalog, this range has the most versatile ceiling speakers AUDAC has to offer. Thanks to their unique construction and DuraWeather™ coating, they are suitable for a very wide range of applications.
CS55
Quick-Fit dual cone in-ceiling speaker

The CS55 is a professional dual cone loudspeaker with a 5 ¼" driver which is capable of producing a power up to 10 Watt RMS, with a maximum of 20 Watt.

20W	100V	Available colours:
		/B /W

CS75
Quick-Fit 2-way in-ceiling speaker

The CS75 is a 2-way high-quality loudspeaker with a 5 ¼" driver for the low frequencies and 1" coaxial tweeter mounted in the center. It is capable of producing up to 30 Watt RMS, with a maximum of 60 Watt.

| 60W	100V	Available colours:
		/B /W

CS85
Quick-Fit 2-way in-ceiling speaker

The CS85 is a 2-way extremely high-quality loudspeaker with a 8" driver for the low frequencies and 1" coaxial tweeter mounted in the center. It is capable of producing up to 40 Watt RMS, with a maximum of 80 Watt.

80W	100V	Available colours:
		/B /W

AGRO5.4
4 x CS55 + COM3

The AGRO5.4 set is composed of CS55 dual cone 5 ¼" in-ceiling loudspeakers providing a clear and intelligible sound, suited for versatile 100 Volt background music and announcement systems.

Powered by a COM3 amplifier, great flexibility for connecting sources and microphones is offered. This system, using four CS55 speakers, can cover areas of around 60 m^2.

Features

- Easy-to-use
- Versatile solution
- Connection flexibility
- Cost-effective

Applications

Bars, Restaurants, Retail, Education, Hotels, Public facilities, Corporate spaces.

High-end
in-ceiling speakers

The CELO series is AUDAC's high-end slim in-ceiling speaker series, consisting of four models which guarantee an optimal experience for every situation and application.

CELO2
2" High-end slim in-ceiling speaker

The ultra-compact size enables the CELO2 to smoothly integrate into any interior like no other loudspeaker. The 2" full-range aluminum cone driver is fitted in a ported enclosure with closed backcan. This way, a clear and crisp sound is guaranteed with an improved response in the low frequencies.

20W	8 Ohm	16 Ohm	Available colours:
			/B /W
		CELO2D	

CELO5
5" High-end slim in-ceiling speaker

The uncompromised design of the CELO5 results in the ideal match between quality and size. It produces a stunning sound which is extremely detailed and clear. The two-way construction consisting of a 5" aluminum cone woofer and a complementary 1" dome tweeter are smoothly matched using a high-quality crossover network.

100W	8 Ohm

Available colours:
/B /W

CELO6
6" High-end slim in-ceiling speaker

The perfect match for a large number of applications is realised with the CELO6 loudspeaker. This loudspeaker consists of a 6" aluminum cone woofer with a complementary 1" dome tweeter. This combination guarantees the perfect harmony and balance of sound, allowing you to accurately distinguish each element of your favourite songs.

120W	8 Ohm

Available colours:
/B /W

CELO8
8" High-end slim in-ceiling speaker

The most powerful of its kind is the CELO8 loudspeaker, which is constructed using a 8" aluminum cone woofer and a complementary 1" dome tweeter. This combination allows the loudspeaker to reach lower frequencies which results in a high-fidelity sound with powerful and detailing low frequencies, unheard of in its class.

160W	8 Ohm

Available colours:
/B /W

Compact
bass cabinet

NOBA is characterized by an innovative & unique design. With its curved shape, made of 4 mm thick aircraft graded aluminum and its extremely powerful 8" woofer of 300 Watts, the NOBA is able to deliver an unheard low frequency response for its small woofer size.

The perfect acoustic experience is guaranteed when the entire audio frequency spectrum is equally distributed. The slick look of the NOBA allows it to be placed against a wall, on the ceiling or even underneath furniture, yet   due to the unique composition of its parts, NOBA ensures a much better spreading of sound waves than other similar cabinets. NOBA's integrated class-D amplifier provides an impressive clarity of 150 Watts for both of the top speaker outputs to ensure impeccable sound division.

High-end
in-wall speakers

The selection of high-grade materials in combination with accurate acoustics craftsmanship makes the MERO speakers superior in their class.

An elegant look with minimal visual impact is created by the slim grill with very thin border, while great ease and installers convenience is guaranteed using the quick-fix mechanism with Gold-Con™ connectivities. The grill is held in place using neodymium magnets, providing a quick and stable assembly. Installation can be done vertically and horizontally, while the rotatable tweeter allows optimal orientation positioning.

MERO2

2" High-end slim in-wall speaker

The ultra-compact size enables the MERO2 to smoothly integrate into any interior like no other loudspeaker. The outer dimensions which measure only 106 x 152 mm and the built-in depth which doesn't exceed 66 mm allows installation in any location and into any surface without being obtrusive.

Column speakers

AUDAC's column loudspeaker range is the elegant result of several decades of development in phased array acoustics. The purpose of these loudspeakers is not only covering long distances but also achieving high sound directivity, reducing unwanted acoustic reverberation to a strict minimum.

Campus Glorieux | Ronse, Belgium Solutions on AUDAC

KYDO
Design column speaker

The KYDO Design column speaker is constructed using 6 x 2" broadband loudspeakers, providing an extraordinary sound quality with surprisingly high sound pressure levels. This results in an excellent audibility of music and speech in acoustically difficult environments with small to medium coverage distances (up to 8 m).

| 120W | 12 Ohm | Available colours: /B /W |

AXIR
Design column speaker

The AXIR Design column speaker is constructed using 12 x 2" broadband loudspeakers, providing an extraordinary sound quality with surprisingly high sound pressure levels. This results in an excellent audibility of music and speech in acoustically difficult environments with medium to large coverage distances (up to 16 m).

| 240W | 6 Ohm | Available colours: /B /W |

GIAX
Design column speaker

The GIAX Design column speaker is constructed using 24 x 2" broadband loudspeakers, providing an extraordinary sound quality with surprisingly high sound pressure levels. This results in an excellent audibility of music and speech in acoustically difficult environments with very large coverage distances (up to 32 m).

| 480W | 4 Ohm | Available colours: /B /W |

Bass cabinets

The BASO cabinets are universally usable passive bass cabinets. Their bass reflex design is engineered to be as compact as possible while giving the maximum performance in terms of sound quality and pressure. Their enclosures are made of sturdy high-quality plywood while their elegant design enables them to be placed in any environment.

BASO10
10" Compact bass reflex cabinet

The BASO10 is loaded with a 10" high-performance woofer with an RMS power rating of 225 Watt and maximum power of 450 Watt. The strength of this loudspeaker originates from a four layer wounded 1.5" voice coil in combination with an over-sized ferrite type magnet which provides an unusual high force factor. In combination with the low-loss suspension, this results in a linear behavior with high efficiency and extremely wide frequency range.

450W   8 Ohm   Available colours:
/B   /W

BASO12

12" Compact bass reflex cabinet

The BASO12 is loaded with a 12" high-performance woofer with an RMS power rating of 500 Watt and maximum power of 1000 Watt. The strength of this loudspeaker originates from a 4" voice coil which is allowed to perform extra long excursions. Displacements are precisely controlled by the dual low-loss suspension resulting in a superior linear behavior.

| 1000W | 8 Ohm | Available colours: /B /W |

BASO15

15" Compact bass reflex cabinet

The BASO15 is loaded with a 15" high-performance woofer with an RMS power rating of 700 Watt and maximum power of 1400 Watt. The strength of this loudspeaker originates from a 4" voice coil which is allowed to perform extra long excursions. Displacements are precisely controlled by the dual low-loss suspension resulting in a superior linear behavior.

| 1400W | 8 Ohm | Available colours: /B /W |

BASO18

18" Compact bass reflex cabinet

The BASO15 is loaded with a 18" high-performance woofer with an RMS power rating of 900 Watt and maximum power of 1800 Watt. The strength of this loudspeaker originates from a 4" voice coil which is allowed to perform extra long excursions. Displacements are precisely controlled by the dual low-loss suspension resulting in a superior linear behavior.

| 1800W | 8 Ohm | Available colours: /B /W |

DIA restaurant | Kaunas, Lithuania runs on AUDAC

Full range
wall speakers

The XENO series is a loudspeaker range specifically designed for fixed audio installations in modern environments, offering two different sizes of contemporary and elegantly designed products.

What makes them so unique is their full-range audio design, allowing them to be used without additional bass cabinet.

The exceptional accuracy and clarity coming from the VEXO8 is recommended to be extended with a complementary bass cabinet adding the punchy and deep bass, resulting in a stunning sound over the entire frequency range.

XENO6
6" Full-range loudspeaker cabinet - 2-way

The XENO6 is the 6" version, featuring a 1" dome tweeter and a 6" Mid / Low frequency driver, ensuring a high-fidelity sound. This wooden cabinet is fitted with a slim and elegant front grill.

| 160W | 8 Ohm | Available colours: /B /W |

XENO8
8" Full-range loudspeaker cabinet - 2-way

The XENO8 is the 8" version, with a 1" dome tweeter and a 8" Mid / Low frequency driver, ensuring a true-to-nature, high-fidelity reproduction of music and speech. This wooden cabinet is fitted with a slim and elegant front grill.

| 240W | 8 Ohm | Available colours: /B /W |

VEXO8
8" High-power loudspeaker cabinet - 2-way

The VEXO8 is a high-output loudspeaker cabinet, featuring a 8" high efficiency Mid / Low range driver and 1" compression driver fitted with a 100° x 80° coverage horn, providing a powerful and detailed sound in a compact cabinet.

| 350W | 8 Ohm | Available colours: /B /W |

FESTA8.2E
2 x XENO8 + EPA502

The contemporary design of the XENO8 loudspeakers makes the FESTA8.2E set suitable for fixed installations requiring a high-quality and full-range sound without an additional bass cabinet.

Powered by an EPA502 Class-D power amplifier, this system, using two XENO8 loudspeakers, can cover areas of around 30 m² with high-quality, full-range sound with optimal acoustical performance and protection.

Features

- Elegant and compact design
- High-quality full-range sound
- High-efficiency Class-D amplifier
