

TRANSPORT 12

400-Watt Battery-Powered Sound System with Wireless Microphone and USB Media Player

Full-range 400-watt speaker covers large spaces with hours of high-fidelity sound even when there is no access to AC power

Here's the situation: You need to deliver great sound to an outdoor wedding, backyard barbeque, a business retreat or that annual reunion softball game.

Here's your dilemma: There's not an AC outlet in sight!

Here's your answer: TRANSPORT 12 from Alto Professional

TRANSPORT 12 is a portable AC/battery-powered sound system. This compact, easily-transportable unit solves the problem of delivering true high-fidelity sound even when there's no access to AC power.

All information is preliminary and subject to change.
