

Your audio solution,
our passion

COMMERCIAL

Audac Set Solutions

AUDAC is the Belgian brand that specializes in professional quality audio solutions.

The brand is well-known for designing inspiring and innovative products for the audio market for over 25 years.

Inside this catalogue, AUDAC's audio engineers help you choose between AUDAC's most innovating acoustic craftsmanships.

In addition to the handy 'speech' and 'music' indication logos, you will also find an indication of the surface that the audio solution will cover. Together with the application examples, these elements will provide you with an accurate idea of which solution will work best.

Are you still struggling to find a solution or are you perhaps looking for a more extensive or elaborate audio system? Do not hesitate to contact us at info@audac.eu.

Ceiling speakers

The CS series are elegant in-ceiling loudspeakers made of high-quality components ensuring a detailed and warm sound reproduction of music as well as speech.

Depending of the models, 100V line transformers with different power tapings are integrated and DuraWeather™ coatings are provided, making them suitable for a very wide range of applications.

CS55

Quick fit ceiling speaker

The CS55 is a professional dual cone loudspeaker with a 5 ½" driver which is capable of producing a power up to 10W RMS, with a maximum of 20W.

10W

100V

CS75

Quick fit 2-way ceiling speaker

The CS75 is a 2-way high-quality loudspeaker with a 5 ½" driver for the low frequencies, and 1" coaxial tweeter mounted in the center. It is capable of producing up to 30W RMS, with a maximum of 60W.

30W

100V

CS85

Quick fit 2-way ceiling speaker

The CS85 is a 2-way extremely high-quality loudspeaker with a 8" driver for the low frequencies, and 1" coaxial tweeter mounted in the center. It is capable of producing up to 40W RMS, with a maximum of 80W.

AGRO 5.4

4 x CS55 + COM3

The AGRO5.4 set is composed of CS55 dual cone 5 ½" in-ceiling loudspeakers providing a clear and intelligible sound, suited for versatile 100 Volt background music and announcement systems.

Powered by a COM3 amplifier, a great flexibility for connecting sources and microphones is offered. This system, using four CS55 speakers, can cover areas of around 60 m².

Features

- Easy to use
- Versatile solution
- Connection flexibility
- Cost effective

Applications

Bars & restaurants, Retail, Education, Hotels, Public facilities, Corporate spaces.

Available colors :  

AGRO 7.10

10 x CS75 + COM12

The AGRO7.10 set is composed of CS75 two-way 5 ½" in-ceiling loudspeakers providing a high-quality and intelligible sound, suited for high-quality 100 Volt background music and announcement systems.

Powered by a COM12 amplifier, a great flexibility for connecting sources and microphones is offered. This system, using ten CS75 speakers, can cover areas of around 120 m².

Features

- Easy to use
- High-quality sound
- Versatile solution
- Connection flexibility

Applications

Bars & restaurants, Retail, Education, Hotels, Public facilities, Corporate spaces.

Available colors :  

AGRO 8.16

16 x CS85 + COM24

The AGRO8.16 set is composed of CS85 two-way 8" in-ceiling loudspeakers providing a powerful and high-fidelity sound quality, suited for highly demanding 100 Volt background music and announcement systems.

Powered by a COM24 amplifier, a great flexibility for connecting sources and microphones is offered. This system, using sixteen CS85 speakers, can cover areas of around 200 m².

Features

- Easy to use
- High-fidelity sound
- Versatile solution
- Connection flexibility

Applications

Bars & restaurants, Retail, Education, Hotels, Public facilities, Corporate spaces.

COM24

High-end ceiling speakers

The CELO series is AUDAC's first high-end slim ceiling speaker series, consisting of four models which can guarantee an optimal experience for every situation and application.

CELO2

2" High-end slim ceiling speaker

The ultra-compact size enables the CELO2 to smoothly integrate into any interior like no other loudspeaker. The 2" full range aluminum cone driver has an RMS power handling of 10 Watt and is fitted in a ported enclosure with closed back can. This way, a clear and crisp sound is guaranteed with an improved response in the low frequencies.

10W

8 Ohm

CELO5

5" High-end slim ceiling speaker

The uncompromised design of the CELO5 results in the ideal match between quality and size. It produces a stunning sound which is extremely detailed and clear. The two-way construction consisting of a 5" aluminum cone woofer and complementary 1" dome tweeter are smoothly matched using a high-quality crossover network.

50W

8 Ohm

CELO6

6" High-end slim ceiling speaker

The perfect match for a large number of applications is realised with the CELO6 loudspeaker. This loudspeaker consists of an 6" aluminum cone woofer with a complementary 1" dome tweeter. This combination guarantees the perfect harmony and balance of sound, allowing you to accurately distinguish each element of your favourite songs.

60W

8 Ohm

CELO8

8" High-end slim ceiling speaker

The most powerful of its kind is the CELO8 loudspeaker, which is constructed using of an 8" aluminum cone woofer and complementary 1" dome tweeter. This combination allows the loudspeaker to reach lower frequencies which results in a high-fidelity sound with powerful and detailing low frequencies, unheard of in its class.

80W

8 Ohm

SENSO 2.2

2 x CELO2 + AMP20

The tiny and nearly invisible design of the CELO2 speakers makes the SENSO2.2 set one of the most compact high-end in-ceiling audio solutions that will draw your attention only through its extraordinary sound.

Powered by the AMP20 mini stereo amplifier, this set enables total integration of the system without any noticeable parts. This system, using two CELO2 loudspeakers, can cover with background music areas of around 30 m².

Features

- Near-invisible design
- High-end sound
- Energy efficient
- Optional remote source inputs and volume controller

Applications

Residential, Bars & restaurants, Retail, Education, Hotels, Public facilities, Corporate spaces.

Available colors :

DPA152

SENSO 6.8

8 x CELO6 + DPA154

Thanks to the elegant and nearly invisible design of the CELO6 speakers, the SENSO6.8 set will aesthetically blend into any environment while guaranteeing an unsurpassed sound experience.

Powered by the DPA154 Class-D amplifier, this system, using eight CELO6 loudspeakers, can cover with high-fidelity sound areas of around 120 m².

Features

- Discreet design
- High-fidelity sound
- High-efficiency Class-D amplifier

Applications

Residential, Bars & restaurants, Retail, Education, Hotels, Public facilities, Corporate spaces.

Available colors :  / 

DPA154

High-end in-wall speakers

The selection of high-grade materials in combination with accurate acoustics craftsmanship makes the MERO speakers superior in their class.

An elegant look with minimal visual impact is created by the slim grill with very thin border, while great ease and installers convenience is guaranteed using the quick-fix mechanism with Gold-CON connectivities. The grill is held in place using neodymium magnets, providing a quick and stable assembly. Installation can be done in both vertically and horizontally, while the rotatable tweeter allows optimal orientation positioning.

MERO2

2" High-end slim in-wall speaker

The ultra-compact size enables the MERO2 to smoothly integrate into any interior like no other loudspeaker. The outer dimensions which measure only 106 x 152 mm and the built-in depth which doesn't exceed 66 mm allows installation in any location and into any surface while being unobtrusive.

10W

8 Ohm

MERO5

5" High-end slim in-wall speaker

The medium sized MERO5 consists of a 5" aluminum cone woofer and complementary 1" dome tweeter that are smoothly matched and optimized using a high-quality crossover network.

50W

8 Ohm

MERO6

6" High-end slim in-wall speaker

The largest MERO6 consists of a 6" aluminum cone woofer and complementary 1" dome tweeter that are smoothly matched and optimized using a high-quality crossover network.

60W

8 Ohm

CERRA 6.2

2 x MERO6 + DPA152

Thanks to the elegant and nearly invisible design of the MERO speakers, the CERRA6.2 set will aesthetically blend into any environment while guaranteeing an unsurpassed sound experience.

Powered by the DPA152 Class-D amplifier, this system using two MERO6 loudspeakers, can cover with high-fidelity sound areas of around 30 m².

Features

- Discreet design
- High-fidelity sound
- High-efficiency Class-D amplifier

Applications

Residential, Bars & restaurants, Retail, Education, Corporate spaces.

Campus Delghust - Ronse, Belgium runs on AUDAC

Column speakers

AUDAC's column loudspeaker range is the elegant result of several decades of development in phased array acoustics. The purpose of these loudspeakers is not only to cover long distances but also to achieve high sound directivity, reducing unwanted acoustic reverberation to a strict minimum.

KYDO Design column speaker

The KYDO Design column speaker is constructed using 6 x 2" broadband loudspeakers, providing an extraordinary sound quality with surprisingly high sound pressure levels. This results in an excellent audibility of music and speech in acoustically difficult environments with small to medium coverage distances (up to 8 meters)

60W

12 Ohm

AXIR Design column speaker

The AXIR Design column speaker is constructed using 12 x 2" broadband loudspeakers, providing an extraordinary sound quality with surprisingly high sound pressure levels. This results in an excellent audibility of music and speech in acoustically difficult environments with medium to large coverage distances (up to 16 meters)

120W

6 Ohm

GIAX Design column speaker

The GIAX Design column speaker is constructed using 24 x 2" broadband loudspeakers, providing an extraordinary sound quality with surprisingly high sound pressure levels. This results in an excellent audibility of music and speech in acoustically difficult environments with very large coverage distances (up to 32 meters)

200W

4 Ohm

Bass cabinets

The BASO cabinets are universally usable passive bass cabinets. Their bass reflex design is engineered to be as compact as possible while giving the maximum performance in terms of sound quality and pressure. Their enclosures are crafted out of sturdy high-quality plywood while their elegant design enables them to be placed in any environment.

BASO10

10" Compact bass reflex cabinet

The BASO10 is loaded with a 10" high-performance woofer with an RMS power rating of 225 Watt and maximum power of 450 Watt. The strength of this loudspeaker originates from a four layer wound 1.5" voice coil in combination with an over-sized ferrite type magnet which provides an unusual high force factor. In combination with the low-loss suspension, this results in a linear behavior with high efficiency and extremely wide frequency range.

225W

8 Ohm

BASO12

12" Compact bass reflex cabinet

The BASO12 is loaded with a 12" high-performance woofer with an RMS power rating of 500 Watt and maximum power of 1000 Watt. The strength of this loudspeaker originates from a 4" voice coil which is allowed to extra long excursions. Displacements are precisely controlled by the dual low-loss suspension resulting in a superior linear behavior.

500W

8 Ohm

BASO15

15" Compact bass reflex cabinet

The BASO15 is loaded with a 15" high-performance woofer with an RMS power rating of 700 Watt and maximum power of 1400 Watt. The strength of this loudspeaker originates from a 4" voice coil which is allowed to extra long excursions. Displacements are precisely controlled by the dual low-loss suspension resulting in a superior linear behavior.

WaveDynamics™ Amplifiers

The following audio solutions include AUDAC's WaveDynamics™ technology.

What are the benefits from this ?

- ▶ Sound optimization thanks to speaker presets
- ▶ Controllability, even with automation systems
- ▶ System Protection
- ▶ Flexibility
- ▶ Efficiency

CONGRESS 2.3

2 x AXIR + BASO10 + SMQ350

When the intelligibility over a medium distances of speech and music is very important, the CONGRESS2.3 set featuring AXIR design column speakers and a 10" BASO10 bass cabinet is the ideal solution.

Powered by a SMQ350 WaveDynamics™ Class-D power amplifier, this system, using two AXIR loudspeakers and a BASO10 bass cabinet can cover with intelligible speech and music, even in acoustically difficult environments, areas of around 60 m².

Features

- ▶ Elegant and slim design
- ▶ Intelligibility over medium distances
- ▶ High-efficiency Class-D amplifier
- ▶ WaveDynamics™ technology

Applications

Education, Corporate spaces, Houses or worship, Public facilities.

Available colors : /B /W

CONGRESS 3.3

2 x GIAX + 2 x BASO12 + SMQ500

When the intelligibility over a medium distances of speech and music is very important, the CONGRESS3.3 set featuring GIAX design column speakers and 12" BASO12 bass cabinets is the ideal solution.

Powered by a SMQ500 WaveDynamics™ Class-D power amplifier, this system, using two GIAX loudspeakers and BASO12 bass cabinets can cover with intelligible speech and music, even in acoustically difficult environments, areas of around 120 m².

Features

- Elegant and slim design
- Intelligibility over large distances
- High-efficiency Class-D amplifier
- WaveDynamics™ technology
- True & impressive bass

Applications

Education, Corporate spaces, Houses or worship, Public facilities.

- 8 Ohm
- 100V

ATEO4
4" 2-Way Wall speaker with CleverMount™ bracket

The ATEO4 is the 4" version, with a 1" dome tweeter and a 4" Mid / Low frequency driver, ensuring a true to- nature, high-fidelity reproduction of music and speech.

- 35W
- 8 Ohm
- 100V

ATEO6
6" 2-Way Wall speaker with CleverMount™ bracket

The ATEO6 is the 6" version, with a 1" dome tweeter and a 6" Mid / Low frequency driver, ensuring a true to- nature, high-fidelity reproduction of music and speech.

- 60W
- 8 Ohm
- 100V

FESTA 4.3

2 x ATEO4 + BASO10 + DPA153

The combination of the ATEO4 loudspeakers' stunning design and BASO10 bass cabinet, both featuring high-quality components, enables the FESTA4.3 set to be installed in any environment, guaranteeing an impressive sound with elegant aesthetics.

Powered by a DPA153 Class-D amplifier, this system, using two ATEO4 loudspeakers and a BASO10 bass cabinet can cover with true-to-nature high-fidelity music and speech areas of around 30 m².

Features

- Elegant design
- CleverMount™ Installation
- High-efficiency Class-D amplifier
- Room-filling bass

Applications

Residential, Clubs, Bars & restaurants, Retail, Sports facilities.

Available colors : /B /W

FESTA 4.4

4 x ATEO4 + DPA152

The combination of the ATEO4 loudspeakers' stunning design and high-quality components enables the FESTA4.4 set to be installed in any environment, guaranteeing a high-quality sound with elegant aesthetics.

Powered by a DPA152 Class-D amplifier, this system, using four ATEO4 loudspeakers, can cover with true-to-nature high-fidelity music and speech areas of around 60 m².

Features

- Elegant design
- CleverMount™ installation
- High-quality sound
- High-efficiency Class-D amplifier

Applications

Residential, Clubs, Bars & restaurants, Retail, Education, Hotels, Public facilities, Corporate spaces.

Available colors : /B /W

FESTA 4.5

4 x ATEO4 + BASO10 + DPA153

The combination of the ATEO4 loudspeakers' stunning design and BASO10 bass cabinet, both featuring high-quality components, enables the FESTA4.5 set to be installed in any environment, guaranteeing an impressive sound with elegant aesthetics.

Powered by a DPA153 Class-D amplifier, this system, using four ATEO4 loudspeakers and a BASO10 bass cabinet can cover with true-to-nature high-fidelity music and speech areas of around 60 m².

Features

- Elegant design
- CleverMount™ Installation
- High-efficiency Class-D amplifier
- Room-filling bass

Applications

Residential, Clubs, Bars & restaurants, Retail, Sports facilities.

Available colors :  

± 60 m²

FESTA 6.3

2 x ATEO6 + BASO10 + SMQ350

The combination of the ATEO6 loudspeakers' stunning design and BASO10 bass cabinet, both featuring high-quality components, enables the FESTA6.3 set to be installed in any environment, guaranteeing an impressive sound with elegant aesthetics.

Powered by a SMQ350 WaveDynamics™ Class-D power amplifier, this system, using two ATEO6 loudspeakers and a BASO10 bass cabinet can cover with a warm and powerful sound areas of around 60 m².

Features

- Elegant design
- CleverMount™ Installation
- High-efficiency Class-D amplifier
- WaveDynamics™ technology
- Roomfilling bass

Applications

Residential, Clubs, Bars & restaurants, Retail, Sports facilities.

Available colors :  

± 60 m²

FESTA 6.4

4 x ATEO6 + DPA252

The combination of the ATEO6 loudspeakers' stunning design and high-quality components enables the FESTA6.4 set to be installed in any environment, guaranteeing a high-quality sound with elegant aesthetics.

Powered by a DPA252 Class-D amplifier, this system, using four ATEO6 loudspeakers, can cover with a warm and powerful sound areas of around 60 m².

Features

- Elegant design
- CleverMount™ installation
- High-quality sound
- High-efficiency Class-D amplifier

Applications

Residential, Clubs, Bars & restaurants, Retail, Education, Hotels, Public facilities, Corporate spaces.

Full range wall speakers

The XENO series is a loudspeaker range specifically designed for fixed audio installations in modern environments, offering two different sizes of contemporary and elegant designed products.

What makes them so unique is their full range audio design, allowing them to be used without additional bass cabinet.

The exceptional accuracy and clarity coming from the VEXO8 is recommended to be extended with a complementary bass cabinet adding the punchy & deep bass, resulting in a stunning sound over the entire frequency range.

XENO6
6" Full range loudspeaker cabinet - 2-way

The XENO6 is the 6" version, featuring a 1" dome tweeter and a 6" Mid / Low frequency driver, ensuring a high-fidelity sound. This wooden cabinet is fitted with a slim and elegant front grill.

80W

8 Ohm

XENO8
8" Full range loudspeaker cabinet - 2-way

The XENO8 is the 8" version, with a 1" dome tweeter and a 8" Mid / Low frequency driver, ensuring a true-to-nature, high-fidelity reproduction of music and speech. This wooden cabinet is fitted with a slim and elegant front grill.

120W

8 Ohm

VEXO8
8" High power loudspeaker cabinet - 2-way

The VEXO8 is a high-output loudspeaker cabinet, featuring an 8" high efficiency Mid / Low range driver and 1" compression driver fitted with a 100° x 80° coverage horn, providing a powerful and detailed sound in a compact cabinet.

175W

8 Ohm

FESTA 8.2

2 x XENO8 + SMA350

The contemporary design of the XENO8 loudspeakers makes the FESTA8.2 set suitable for fixed installations requiring a high-quality and full-range sound without an additional bass cabinet.

Powered by a SMA350 WaveDynamics™ Class-D power amplifier, this system, using two XENO8 loudspeakers, can cover with high-quality, full-range sound with optimal acoustical performance and protection areas of around 30 m².

Features

- Elegant and compact design
- High-quality full-range sound
- High-efficiency Class-D amplifier
- WaveDynamics™ technology

Applications

Residential, Clubs, Bars & restaurants, Retail, Education, Hotels, Public facilities, Corporate spaces.

Outdoor speakers

AUDAC offers a wide range of solutions for all outdoor applications. In this catalogue, you will find solutions from WX series outdoor range. Thanks to a watertight connector, a durable ABS housing, a specially designed drain hole and a DuraWheater™ coating, this range has an IP55 rating and has proven its worth for decades in extreme weather conditions.

SSP500

2-way flush mount sauna speaker

The SSP500 is a flush mount loudspeaker, especially designed to be used in rooms with a very high temperature and level of humidity, such as sauna's, bathrooms, swimming pool area's, ...

WX302/O

3" Outdoor wall speaker
2-way

The WX302/O speakers are specifically designed for outdoor use and lend themselves to a variety of applications, ensuring true-to-nature, high-fidelity reproduction of music and speech.

WX502/O

5" Outdoor wall speaker
2-way

The WX502/O is a powerful 2-way performance speaker which is especially designed for outdoor use, ensuring true-to-nature, high fidelity reproduction of music and speech.

WX802/O

8" Outdoor wall speaker
2-way

The AUDAC WX802/O is a powerful 2-way, 8" loudspeaker cabinet which is specifically designed for outdoor use. It lends itself to a wide variation of outdoor applications, ensuring a clear and powerful sound reproduction.

PURRA 5.1

2 x SSP500 + AMP20

The high-quality sound coming from two SSP500 loudspeakers in combination with an AMP20 mini stereo amplifier will leave stunned. Besides the fact that the SSP500's are moisture resistant, they also withstand extreme temperatures.

Features

- Discreet design
- High-quality sound
- IP44 Ingress protection
- High-efficiency
- Optional remote
